STATE OF ILLINOIS  
SENATE

SENATOR  
DENNY JACOBS

STATE CAPITOL  
SPRINGFIELD, ILLINOIS  
62706

August 13, 1990

RECEIVED  
AUG 29 1990

The Honorable William K. Reilly  
Administrator  
Environmental Protection Agency  
401 M Street SW  
Washington, DC 20460

Dear Administrator Reilly:

I am a member of the Energy and Environment Committee of the Illinois State Senate. As a legislator and committee member, I am aware that pollution presents one of the most significant challenges of our time. I believe it is critical that every effort be made to explore ways to improve the quality of air throughout our nation, particularly in our urban areas.

I am advised that the United States Environmental Protection Agency is presently considering the use of a gasoline performance additive known as Hi-Tech<sup>®</sup> 3000 in the United States. It is my understanding that tests have demonstrated that this product may substantially reduce pollution resulting from automobile emissions. This being the case, I urge you and the Environmental Protection Agency to afford Hi-Tech<sup>®</sup> 3000 every possible consideration for use in this country.

Thank you for your efforts.

Sincerely,

A handwritten signature in cursive script, appearing to read "Denny".

Denny Jacobs  
State Senator  
36th District
